EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Livingston on December 16th, 2009.

The application has been amended as follows:

In claim 23:

--a fourth controlling device-- has been replaced with --a logical address controlling device--

In claim 24:

--a fifth controlling device-- has been replaced with --a logical address controlling device--

2. Claims 10 and 20-22 are allowable. Claims 13-19, 23, 24, and 27, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement among species A, B, and C, as set forth in the Office action mailed on March 13th, 2009, is hereby withdrawn** and claims 13-19, 23, 24, and 27 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is

Art Unit: 2627

anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. The following is an examiner's statement of reasons for allowance:

Regarding claim 10:

In their arguments filed October 16th, 2009, applicant discusses at length the reasons why the amended claim 10 is allowable over Ross, the closest prior art of record. These arguments are persuasive.

In short, the essential reason for allowance is Ross does not disclose wherein the apparatus records all of the areas recited in the claim. Ross discloses recording two sessions on a disc, each including data recorded on two layers, with a lead-in on one layer, a lead-out on another, and middle area on both.

This was sufficient to meet the old claim language: the middle areas for the first session of Ross could be considered the interlayer buffer area of the old claim.

However, the amended claim is considerably more detailed. It recites not only a lead-in or lead-out and middle areas for each layer, but first and second interlayer buffer areas for each of the partial recording areas and border-in and border-out areas for at least one of the partial recording areas, and furthermore specifies that the partial recording areas, interlayer buffer areas, and border-in and border-out areas are all

Art Unit: 2627

recorded in the data area. Ross does not disclose this combination of elements, and therefore the combination of elements in the claim renders it allowable over the prior art of record.

Regarding claims 13-24 and 27:

They are allowable due to their dependence on claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CHRISTOPHER R. LAMB whose telephone number is (571)272-5264. The examiner can normally be reached on 9:00 AM to 5:30 PM Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Feild can be reached on (571) 272-4090. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
